

ChargeBox

The ChargeBox - A simple yet brilliant device.
An essential solution to one of the most
annoying problems of the 21st Century...
running out of battery!

Features

- Chargeboxes are as independent and autonomous as traditional vending machines.
- Free standing plug and play unit, no additional fixings are required.
- All that is needed is a single power socket - a Chargebox uses less energy than a 100W bulb.
